FAMILIES AFFECTED BY AUTISM
FIRST ANNUAL GOLF OUTING - MONDAY, AUGUST 6, 2007***

Dear Friends:

On behalf of the Darryl Strawberry Foundation, we cordially invite you to tee-off at our First Annual Golf Benefit at the Lawrence Country Club - in Lawrence, Long Island on Monday, August 6, 2007. This incredible day will feature Darryl Strawberry and his friends Howard Johnson, Keith Hernandez, Ron Darling, Davey Johnson, Kevin Mitchell, Spud Webb and others plus brunch and dinner with a grand auction full of sports memorabilia, personal appearance packages, tickets and passes to specialized organized events (i.e. sporting events, American Idol tickets, etc.) and much more.

AUTISM

All proceeds from this even go directly to funding the expansion and new construction of educational and living facilities for children and adults with autism. Autism is a disorder that is affecting millions of our children and families in epidemic proportions. It is one of the least government funded organizations leaving a desperate cry and need for awareness, research, programs and facilities to help the countless families that are in need. There is no cure, but tremendous progress is made in children who receive the special education and attention they need at a very young age. It is critical to the development of these precious children and will determine the quality of life that they will be able to experience. My wife and I do not have children with autism, but we have spent much time with many parents and families around the United States listening to their stories, feeling their frustration and watching their pain. We can not help but say, **"WHAT CAN WE DO TO MAKE A DIFFERENCE?"**
